ARTICLE II
DEFINITIONS

The following definitions apply in this Agreement:

Section 201: AGENT
A person appointed by a seller to represent the seller before the member states.

Section 202: CERTIFIED AUTOMATED SYSTEM (CAS)
Software certified under the Agreement to calculate the tax imposed by each jurisdiction on a transaction, determine the amount of tax to remit to the appropriate state, and maintain a record of the transaction.

Section 203: CERTIFIED SERVICE PROVIDER (CSP)
An agent certified under the Agreement to perform the seller's sales and use tax functions as outlined in the contract between the Streamlined Sales Tax Governing Board and the Certified Service Provider, other than the seller's obligation to remit tax on its own purchases. See Compiler's Notes for History.

Section 204: ENTITY-BASED EXEMPTION
An exemption based on who purchases the product or who sells the product. An exemption that is available to all individuals shall not be considered an entity-based exemption. See Compiler's Notes for history.

Section 205: MODEL 1 SELLER
A seller registered under the Agreement that has selected a CSP as its agent to perform the seller's sales and use tax functions as outlined in the contract between the Streamlined Sales Tax Governing Board and the Certified Service Provider, other than the seller's obligation to remit tax on its own purchases. See Compiler's Notes for history.

Section 206: MODEL 2 SELLER
A seller registered under the Agreement that has selected a CAS to perform part of its sales and use tax functions, but retains responsibility for remitting the tax. See Compiler's Notes for history.

Section 207: MODEL 3 SELLER
A seller registered under the Agreement that has sales in at least five member states, has total annual sales revenue of at least five hundred million dollars, has a proprietary system that calculates the amount of tax due each jurisdiction, and has entered into a performance agreement with the member states that establishes a tax performance standard for the seller. As used in this definition, a seller includes an affiliated group of sellers using the same proprietary system.

LIBRARY OF DEFINITIONS

Part I Administrative definitions including tangible personal property. Terms included in this Part are core terms that apply in imposing and administering sales and use taxes.

Part II Product definitions. Terms included in this Part are used to impose sales and use taxes, exempt items from sales and use taxes or to impose tax on items by narrowing an exemption that otherwise includes these items.
See Compiler’s Notes for history.

Part III Sales tax holiday definitions. Terms included in this Part are core terms that apply in imposing and administering sales and use taxes during sales tax holidays.

PART I Administrative Definitions

A “bundled transaction” is the retail sale of two or more products, except real property and services to real property, where (1) the products are otherwise distinct and identifiable, and (2) the products are sold for one non-itemized price. A “bundled transaction” does not include the sale of any products in which the “sales price” varies, or is negotiable, based on the selection by the purchaser of the products included in the transaction.

(A) “Distinct and identifiable products” does not include:

1. Packaging – such as containers, boxes, sacks, bags, and bottles – or other materials – such as wrapping, labels, tags, and instruction guides – that accompany the “retail sale” of the products and are incidental or immaterial to the “retail sale” thereof. Examples of packaging that are incidental or immaterial
include grocery sacks, shoeboxes, dry cleaning garment bags and express delivery envelopes and boxes.

2. A product provided free of charge with the required purchase of another product. A product is “provided free of charge” if the “sales price” of the product purchased does not vary depending on the inclusion of the product “provided free of charge.”

3. Items included in the member state’s definition of “sales price,” pursuant to Appendix C of the Agreement.

(B) The term “one non-itemized price” does not include a price that is separately identified by product on binding sales or other supporting sales-related documentation made available to the customer in paper or electronic form including, but not limited to an invoice, bill of sale, receipt, contract, service agreement, lease agreement, periodic notice of rates and services, rate card, or price list.

(C) A transaction that otherwise meets the definition of a “bundled transaction” as defined above, is not a “bundled transaction” if it is:

(1) The “retail sale” of tangible personal property and a service where the tangible personal property is essential to the use of the service, and is provided exclusively in connection with the service, and the true object of the transaction is the service; or

(2) The “retail sale” of services where one service is provided that is essential to the use or receipt of a second service and the first service is provided exclusively in connection with the second service and the true object of the transaction is the second service; or

(3) A transaction that includes taxable products and nontaxable products and the “purchase price” or “sales price” of the taxable products is de minimis.

(a) De minimis means the seller’s “purchase price” or “sales price” of the taxable products is ten percent (10%) or less of the total “purchase price” or “sales price” of the bundled products.

(b) Sellers shall use either the “purchase price” or the “sales price” of the products to determine if the taxable products are de minimis. Sellers may not use a combination of the “purchase price” and “sales price” of the products to determine if the taxable products are de minimis.
(c) Sellers shall use the full term of a service contract to determine if the taxable products are de minimis; or

(4) The “retail sale” of exempt tangible personal property and taxable tangible personal property where:

(a) the transaction includes “food and food ingredients”, “drugs”, “durable medical equipment”, “mobility enhancing equipment”, “over-the-counter drugs”, “prosthetic devices” (all as defined in Appendix C) or medical supplies; and

(b) where the seller's “purchase price” or “sales price” of the taxable tangible personal property is fifty percent (50%) or less of the total “purchase price” or “sales price” of the bundled tangible personal property. Sellers may not use a combination of the “purchase price” and “sales price” of the tangible personal property when making the fifty percent (50%) determination for a transaction.

See Compiler’s Notes for history.

“Delivery charges” means charges by the seller of personal property or services for preparation and delivery to a location designated by the purchaser of personal property or services including, but not limited to, transportation, shipping, postage, handling, crating, and packing.

A. A member state may exclude all delivery charges from the sales price of all personal property and services, or choose to exclude from the sales price of personal property or services one or more of the following components, and may amend the definition of delivery charges accordingly:

1. Handling, crating, packing, preparation for mailing or delivery, and similar charges; or

2. Transportation, shipping, postage, and similar charges.

B. In addition, a member state may treat “delivery charges” for “direct mail” differently than it treats “delivery charges” for other personal property or services. A member state may exclude all “delivery charges” from the “sales price” for “direct mail” or choose to exclude from the “sales price” of “direct mail” one or more of the following components, and may amend the definition of “delivery charges” accordingly:

1. Handling, crating, packing, preparation for mailing or delivery, and similar charges; or

2. Transportation, shipping, and similar charges; or
3. Postage.

C. Unless a seller separately states the “delivery charges” or components of “delivery charges” on the invoice or similar billing document given to the purchaser, those non-separately stated charges will not qualify for the exclusion from “sales price.” No member state may require a seller to separately state any “delivery charge” or component thereof.

D. The exclusion of “delivery charges” for “direct mail” shall apply to any sale involving the delivery or mailing of: “direct mail;” printed material that would otherwise be “direct mail” that results from a transaction that a state considers the sale of a service; or printed material delivered or mailed to a mass audience when the costs of the printed materials are not billed directly to the recipients and is the result of a transaction that includes the development of billing information or the provision of data processing services.

E. If a shipment includes exempt property and taxable property, the seller should allocate the delivery charge by using:

1. A percentage based on the total sales prices of the taxable property compared to the total sales prices of all property in the shipment; or

2. A percentage based on the total weight of the taxable property compared to the total weight of all property in the shipment.

The seller must tax the percentage of the delivery charge allocated to the taxable property but does not have to tax the percentage allocated to the exempt property.

See Compiler’s Notes for history.

“Direct mail” means printed material delivered or distributed by United States mail or other delivery service to a mass audience or to addressees on a mailing list provided by the purchaser or at the direction of the purchaser when the cost of the items are not billed directly to the recipients. “Direct mail” includes tangible personal property supplied directly or indirectly by the purchaser to the direct mail seller for inclusion in the package containing the printed material. “Direct mail” does not include multiple items of printed material delivered to a single address.

See Compiler’s Notes for history.

"Lease or rental" means any transfer of possession or control of tangible personal property for a fixed or indeterminate term for consideration. A lease or rental may include future options to purchase or extend.
A. Lease or rental does not include:
   1. A transfer of possession or control of property under a security agreement or deferred payment plan that requires the transfer of title upon completion of the required payments;
   2. A transfer or possession or control of property under an agreement that requires the transfer of title upon completion of required payments and payment of an option price does not exceed the greater of one hundred dollars or one percent of the total required payments; or
   3. Providing tangible personal property along with an operator for a fixed or indeterminate period of time. A condition of this exclusion is that the operator is necessary for the equipment to perform as designed. For the purpose of this subsection, an operator must do more than maintain, inspect, or set-up the tangible personal property.

B. Lease or rental does include agreements covering motor vehicles and trailers where the amount of consideration may be increased or decreased by reference to the amount realized upon sale or disposition of the property as defined in 26 USC 7701(h)(1).

C. This definition shall be used for sales and use tax purposes regardless if a transaction is characterized as a lease or rental under generally accepted accounting principles, the Internal Revenue Code, the [state commercial code], or other provisions of federal, state or local law.

D. This definition will be applied only prospectively from the date of adoption and will have no retroactive impact on existing leases or rentals. This definition shall neither impact any existing sale-leaseback exemption or exclusions that a state may have, nor preclude a state from adopting a sale-leaseback exemption or exclusion after the effective date of the Agreement.

“Purchase price” applies to the measure subject to use tax and has the same meaning as sales price.

“Retail sale or Sale at retail” means any sale, lease, or rental for any purpose other than for resale, sublease, or subrent.
“Sales price” applies to the measure subject to sales tax and means the total amount of consideration, including cash, credit, property, and services, for which personal property or services are sold, leased, or rented, valued in money, whether received in money or otherwise, without any deduction for the following:

A. The seller's cost of the property sold;
B. The cost of materials used, labor or service cost, interest, losses, all costs of transportation to the seller, all taxes imposed on the seller, and any other expense of the seller;
C. Charges by the seller for any services necessary to complete the sale, other than delivery and installation charges;
D. Delivery charges;
E. Installation charges; and
F. Credit for any trade-in, as determined by state law.

Notwithstanding (B) above, a state may elect, by statute or administrative regulation, to exclude from sales price the following types of taxes, but only if that tax is separately stated on the invoice, bill of sale or similar document given to the purchaser:

1. Any or all state and local taxes on a retail sale that are imposed on the seller if the state statute authorizing or imposing the tax provides that the seller may, but is not required, to collect such tax from the consumer. If there is no state statute authorizing or imposing the local tax, the language in the local ordinance will determine if the local tax may, but is not required, to be collected from the consumer; and/or
2. Tribal taxes on a retail sale that are imposed on the seller if the Tribal law authorizing or imposing the tax provides that the seller may, but is not required, to collect such tax from the consumer.

Under paragraphs 1. and 2., the exclusion of a specific tax from sales price may not be based on the type of consumer or product sold.

3. Federal excise taxes or fees that are not directly imposed on a consumer that a state specifically lists on its taxability matrix. While a state may designate a category of federal
excise taxes or fees that are excluded from sales price, only those specific federal excise taxes and fees listed on the state’s taxability matrix are excludable, which shall include a reference to the specific law (e.g., diesel fuel and special excise taxes imposed under 26 U.S.C. § 4041).

Under paragraph 3., the exclusion of a specific tax or fee from sales price may not be based on the type of consumer.

All exclusions from sales price shall be listed on the state’s taxability matrix. Unless a seller seeks an exclusion from sales price, a seller is not required to separately state an exclusion on an invoice, billing or similar document given to the purchaser. A state may exclude from “sales price” the amounts received for charges included in paragraphs (C) through (F) above, if they are separately stated on the invoice, billing, or similar document given to the purchaser. A state may exclude from (C) above, “telecommunications nonrecurring charges” if they are separately stated on the invoice, billing, or similar documents. A state doing so must define “telecommunications nonrecurring charges” as follows:

“Telecommunications nonrecurring charges” means an amount billed for the installation, connection, change or initiation of “telecommunications service” received by the customer.

“Sales price” shall not include:

A. Discounts, including cash, term, or coupons that are not reimbursed by a third party that are allowed by a seller and taken by a purchaser on a sale;

B. Interest, financing, and carrying charges from credit extended on the sale of personal property or services, if the amount is separately stated on the invoice, bill of sale or similar document given to the purchaser; and

C. Any taxes legally imposed directly on the consumer that are separately stated on the invoice, bill of sale or similar document given to the purchaser.

“Sales price” shall include consideration received by the seller from third parties if:

A. The seller actually receives consideration from a party other than the purchaser and the consideration is directly related to a price reduction or discount on the sale;
B. The seller has an obligation to pass the price reduction or discount through to the purchaser;
C. The amount of the consideration attributable to the sale is fixed and determinable by the seller at the time of the sale of the item to the purchaser; and
D. One of the following criteria is met:
   1. The purchaser presents a coupon, certificate or other documentation to the seller to claim a price reduction or discount where the coupon, certificate or documentation is authorized, distributed or granted by a third party with the understanding that the third party will reimburse any seller to whom the coupon, certificate or documentation is presented;
   2. The purchaser identifies himself or herself to the seller as a member of a group or organization entitled to a price reduction or discount (a “preferred customer” card that is available to any patron does not constitute membership in such a group), or
   3. The price reduction or discount is identified as a third party price reduction or discount on the invoice received by the purchaser or on a coupon, certificate or other documentation presented by the purchaser.

States may also exclude from “sales price” either employee discounts that are reimbursed by a third party on sales of motor vehicles, or manufacturer rebates on motor vehicles, or both.

“Tangible personal property” means personal property that can be seen, weighed, measured, felt, or touched, or that is in any other manner perceptible to the senses. “Tangible personal property” includes electricity, water, gas, steam, and prewritten computer software.

*Interpretation Issued: The Governing Board issued Interpretation Opinion 2009-1 relating to the definition of “tangible personal property” on May 12, 2009. That interpretation can be found in the Library of Interpretations in Appendix D.*

Modifiers of Sales Tax Base/Exemption Terms:
The following terms can be used to further delineate the type of “telecommunications service” to be taxed or exempted. The terms would be used with the broader terms and subcategories delineated above.

“Coin-operated telephone service” means a “telecommunications service” paid for by inserting money into a telephone accepting direct deposits of money to operate.
“International” means a “telecommunications service” that originates or terminates in the United States and terminates or originates outside the United States, respectively. United States includes the District of Columbia or a U.S. territory or possession.

The terms “ancillary services” and “telecommunications service” are defined as a broad range of services. The terms “ancillary services” and “telecommunications service” are broader than the sum of the subcategories. Definitions of subcategories of “ancillary services” and “telecommunications service” can be used by a member state alone or in combination with other subcategories to define a narrower tax base than the definitions of “ancillary services” and “telecommunications service” would imply. The subcategories can also be used by a member state to provide exemptions for certain subcategories of the more broadly defined terms. A member state that specifically imposes tax on, or exempts from tax, local telephone or local telecommunications service may define “local service” in any manner in accordance with Section 327 of the Agreement, except as limited by other sections of this Agreement.
