Dear Donny and Neal,

In the mid-day of busy schedule, I apologize for not providing a cover letter. Many members of our community have no running water or sewage because of frozen pipes.

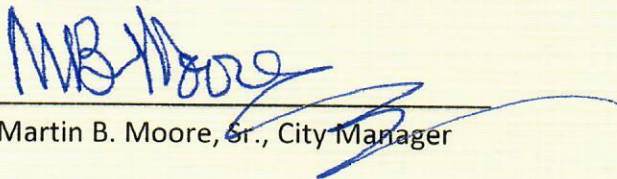

But most importantly Emmonak is running out of heating fuel. Both City and Emmonak Corporation have very limited fuel inventory not enough for end of winter season.

The City needs 20,000 gallons heating fuel 3.60 per/gal is \$72,000 in order to prevent major water plant disaster for which the City has no funding available.

The following entities in Emmonak may have extra heating fuel AVEC, Lower Yukon School District and Kwipak Fisheries if not enough we may have to revert to flying heating fuel. As time permits, we will keep you informed.

We appreciate your time and the support controlling endangerment of Corona Virus COVID – 19 God.

God Bless you all  
Respectfully,

Martin B. Moore, Sr., City Manager
