Managed
NAC

A Clear Path Forward for Your
Aruba ClearPass.

You made a strong investment decision with Aruba ClearPass, the market's best platform for secure network access control (NAC). It is time to multiply the significant benefit gained from this tool by partnering with Structured to provide core management.

Structured is a nationally acclaimed managed services provider (MSP) with unique expertise in applying information security, compliance and data protection strategies to enhance clients' business operations. We developed **Managed NAC services for ClearPass** for organizations just like yours -- organizations that must quickly deliver responsive IT services to the business while maintaining a streamlined, focused, and even happy IT team.

We understand that while ClearPass is an incredible tool, appropriate management and maintenance of the platform can be time-consuming. It also requires a unique skillset that you may not always have readily available on your staff. So **make the easy decision to offload ClearPass management to Structured. We are committed to ensuring your NAC platform protects your environment while delivering a great user experience (UX).**

Specifically, Structured will work to ensure your ClearPass environment keeps up with business needs by performing health checks and regular, planned updates. These attentive maintenace services help you maximize your investment in ClearPass and keep the platform running at peak efficiency.

Our large and experienced managed services staff will always be well-versed in caring for ClearPass. Perhaps most important, outsourcing to Structured means you are free to focus your team on work that is more impactful to your organization's operation and bottom line.

structured.com

Reclaim Your
Team's Time.

Structured's Managed NAC services for ClearPass are built on three pillars: **Platform Health Checks, Critical Updates, and Ongoing Improvements**. As one of the service's added benefits, we first perform an assesssment of your deployed ClearPass environment to ensure it meets Aruba's standards. Where lacking, we will present configuration recommendations for anything that should be remedied.

Health Checks

*Struggling to consistently manage the health of your ClearPass deployment?*

If so, you are not alone. Just outsource it. Structured's expert team is ready and able to take on the quarterly health checks and platform maintenance that your ClearPass instance requires for optimal performance.

Critical Updates

Running from one system upgrade to another to stay ahead of advanced cyberthreats?

Let us help you catch your breath. Our service includes the installation of critical updates, major version upgrades, and smaller software updates during approved maintenance windows we establish with your organization.
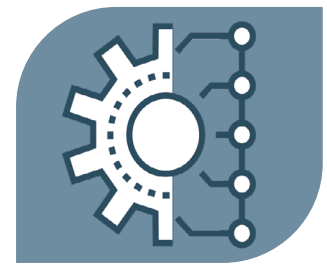

Improvements

Not fully leveraging all the benefits of ClearPass that you would or could?

Don't worry. Structured works with you each quarter to improve and expand the platform's use cases in your environment. You get all of the system's benefits in a consultative, sane and safe way while improving your total cost of ownership (TCO).

Advantage
YOU

Imagine achieving the robust network access control platform you always envisioned -- without taxing your IT team or onboarding a new hire or two. Keep your crew focused on the activities you know will be most beneficial to your organization's operations, growth, stability and long-term success. Leave the granular, complex and time-intensive ClearPass maintenance to Structured.

Structured's Managed Services for Aruba ClearPass deliver on the promise of greater device visibility, stronger policy control, smoother workflow automation, and better user experiences.

About
Structured

Structured is an award-winning solution provider delivering secure, cloud-connected digital infrastructure and managed services.

For nearly 30 years, we've helped clients through all phases of digital transformation by securely bridging people, business and technology. Customers trust us to provide valuable insight throughout the process of selecting and implementing secure and scalable IT strategies, platforms, processes and policies that meet modern expectations and drive measurable improvements throughout the enterprise.

Throughout this journey, they rely on us to provide design guidance, engineering assistance, and product recommendations that adhere to industry best practices, boost ROI, and – most importantly – maximize information security and regulatory compliance.

Structured Managed Services maintains the prestigious American Institute of CPAs (AICPA) SOC 2 certification.

In addition, CRN®, a brand of The Channel Company, included Structured in its 2023 elite MSP Security 100 ranking, a designation highlighting MSPs that bring special focus to safeguarding users, devices, applications and data -- as well as delivering cloud-based security services.

ALASKA MUNICIPAL LEAGUE

Alaskans face unprecedented cybersecurity risks, including increasingly sophisticated adversaries, widespread vulnerabilities in commonly used hardware and software, and broad dependencies on network technologies for day-to-day operation of critical infrastructure.

AML has negotiated an agreement with Structured, a local solution provider, for Managed NAC Services for Aruba ClearPass. These services are available to all eligible entities, including local governments, Tribal governments, and political subdivisions (public) of the state.
